

5 April 1974

NOTE FOR: Director, Central Reference
Service

SUBJECT : Project SAFE Briefing

After the Project Safe briefing today, the Director buzzed me to express his delight with the briefing. He said that the activities embraced by Project SAFE were precisely the way he wanted things to go when he made the decision in 1972. He had some particularly kind words to say about your role and that of [] in the leadership you both displayed in this Project.

All I can say is that I second the motion. I think the briefing elicited precisely the kind of response that I hoped that it would, and that we made some real progress in getting the Director to focus on how to attack the whole information handling problem.

Please pass on to [] my own thanks and appreciation; the kind of dedication and loyalty to the Agency that his performance in CRS has typified makes it a pleasure to be a DDier.

[]

Paul V. Walsh
Acting DDI
